**Subject:** RE: VPDES Permit Application - VA0068314 - Rhapsody Industrial/Purgo

Can you revise and resubmit the VPDES Permit Application Addendum (your previous submittal is attached for your convenience):

1. Item #1 should be the legal corporate entity that will serve as permit holder (Circum Corporation).
2. Item #9 should list the O&M Manual approval date. The one I have, as listed on the DEQ 2008 inspection report, is 6/23/87 which should be added.

Sincerely,

***Tamira Cohen, Ph.D.***

Hi I have summarized the items here that have not yet been addressed:

2. Can you verify if the collection system has changed (EPA Form 2A, Item A.4). You had listed that only the warehouse was served, with a population of 40.
3. You told me that Stephen Jones owns the property between the Rhapsody Industrial Park and the North Anna River (Purgo). From my research, it looks like this property is owned by Camelot L.C. (managing member Robert L. Carroll) and managed by Purgo Inc. (president Gay Turner and CEO Robert L. Carroll). I realize the two properties are linked but I need more information to justify performing the permit limitation evaluation at the North Anna River (as it was previously done) rather than the dry ditch where it leaves the Industrial Park. Can you provide something more concrete, like the corporate structure for the current permit holder, or how the two property

owners or facility operators are connected so I can accurately document the rationale in the fact sheet.

4. Thanks for the submittal of the VPDES Permit Application Addendum.

1. Item #1 should be the legal corporate entity that will serve as permit holder. You have listed the facility name. Will the permit holder be Rhapsody Land & Development, LLC? If so, please revise this item.

2. Item #9 should list the O&M Manual approval date. The one I have, as listed on the DEQ 2008 inspection report, is 6/23/87 which should be added.

Please address as soon as possible and let me know if you have any questions.

Sincerely,

---

It looks like the permit holder CIRCAM Corporation was purged from the Virginia State Corporation Commission database in June 2011. Is the new permit holder to be Rhapsody Land & Development, LLC? You would have

indicated this on the VPDES Permit Application Addendum. Did you find a copy?

**Subject:** RE: VPDES Permit Application - VA0068314 - Rhapsody Industrial/Purgo

Mr. Cook,

I received your call yesterday and have had a chance to review the application revisions you submitted. There appear to be a few items requiring revision and/or clarification. At this point, I would recommend you resubmit complete revised application forms for: EPA Form 2A, the VPDES Sewage Sludge Permit Application Form, and the VPDES Permit Application Addendum (this has not been submitted but can be downloaded from [http://www.deq.virginia.gov/export/sites/default/vpdes/documents/VPDES\\_Permits\\_Application\\_Addendum.doc](http://www.deq.virginia.gov/export/sites/default/vpdes/documents/VPDES_Permits_Application_Addendum.doc)). Please ensure that the revised application submittal incorporates your most recent revisions in addition to the items listed below. Please note that the application forms must be signed by a responsible corporate officer for CIRCAM or a delegated authority (see information on this below).

**VPDES Sewage Sludge Permit Application Form –**

Page 1 – Screening Information – Item 2: I can't quite make out what is written. Can you please make clarify.

**Section A:**

Item 1 – Please complete d-f, h

Item 5a – Please submit a map showing location of all sewage sludge generation, handling, storage, treatment, hauling areas.

Item 6 – Please provide line drawing and/or narrative description identifying all sewage sludge processes as detailed.

Item 9 – Check the appropriate sections and provide a signature by an authorized signatory for the permit holder which would be a responsible corporate officer for CIRCAM or a delegated authority in which case we would need a copy of the delegation where authority to sign documents has been assigned in accordance with corporate procedures.

**Section B:**

Item 1 – Try to provide an estimate of the sludge generated at the facility.

Item 2.e. – Same as above (try to provide an estimate).

Item 3.c. – Please complete.

Item 5 – Indicate NA if not applicable.

Items 6 to 10 – Where does the sludge from this facility end up? Do one of these items apply in terms of the final sludge processing/disposal?

Let me know if you have any questions.

Sincerely,

---
